

BANKOSA Banknote Sorter BK 140

The **BANKOSA BK140** banknote sorter has a bright 3.5-inch TFT display and a clear and user-friendly interface. The device offers multiple options for cash counting and provides reliable counterfeit protection. Banknote counting speed reaches 1200 banknotes per minute in CNT mode.

This device is easy to maintain and clean due to its simple design and fully open cash flow path. The serial number reading function optimizes counting, sorting, authentication, and other processes that require accuracy and reliability in financial accounting.

FEATURES

Colorful Screen

3.5-inch big colorful TFT screen with smart touch function and user-friendly interface, easy to use.

Flexible Counting Features

Includes multi-counting modes: MDC, SDC, SDCV, CNT, auto currency and mix currency counting, serial number reading, etc.

Protects Against Counterfeits

Defends against counterfeit bills with Ultraviolet, Magnetic, and Infrared Detection technology. Secured counterfeit detection by dual CIS sensors.

Easy Maintenance

Full open channel design for better maintenance and jam removal.
