

# Banknote Binder **Julong JL0301**

The banknote binding(strapping) machine is designed for semi-automatic binding of banknotes with a single circular transversal tape (strap) with pre-applied thermo-melting adhesive.

Due to its small size and high packing speed, it is suitable for use in cash offices and bank branches to prepare cash for transportation and storage.

#### **ADVANTAGES**

# Versatility

The binder works with banknotes of any size. The banknote feed depth can be adjusted to choose the place where the banknotes are strapping.

## High speed of work

Process up to 2,400 banknotes per minute due to fast bundling cycle.

## Easy and convenient operation

Easy to change the binding tape. Easy operation thanks to the modern ergonomic design of the device.

## Safety

Dust and water-resistant screen and touch buttons on the control panel protect the device from damage during operation.

## Wide range of consumables

The binder can use tape widths of 20, 30 or 40 mm. White, kraft or pre-printed tape can be used to meet the bank's requirements.
